The Nevada State Orphans' Home is the best conducted public institution of the kind on the Pacific coast.

A salute of a hundred guns was fired in Aurora when the news was received of the verdict in the Guiteau case.

It is now estimated that the Alice and Magna Charta mines, Utah, have four million dollars in dividends in sight.

In Sacramento, Monday, a young married woman, Lillie Menken, aged 19, took a fatal dose of creosote in a low hovel on I street.

MOLINE, Ill., July 14, 1881.

H. H. Warner & Co., Rochester, N. Y.

GENTLEMEN: Your remedy, the Safe Kidney and Liver Cure has been used by both my wife and myself. She used it "on general principles," as a system and liver regulator; I took the medicine for a long-standing liver trouble, which has been the source of much inconvenience, and which failed to yield to the doctor's remedies, or any other, until we used your Safe Kidney and Liver Cure. We both unite in pronouncing it to be the best medicine ever used, and in recommending it to others as a safe remedy.

S. W. Wheelock

Mayor of Moline.

CHICAGO, May 30, 1881

H. H. Warner & Co., Rochester, N. Y.

MY DEAR SIRS: For several years I have been a sufferer, and until your Safe Kidney and Liver Cure was suggested I have not known what it is to be free from pain. My family physician attributed all my suffering to a diseased condition of my kidneys, and after he had failed to give me relief. I tried your remedy, and a well man to-day.

C. N. Harris

"Carl Pretzel"

Thousands of equally strong endorsements—many of them, in cases where hope was abandoned—have been voluntarily given, showing the remarkable power of Warner's Safe Kidney and Liver Cure, in all diseases of the kidneys, liver or urinary organs. GAMBETTA'S GAMBLE.

An Ohio paper does the French situation up in a nut shell as follows: "If the people of Ohio were to choose their representatives of Congress in Congress in bulk, instead of by districts, as now, this would be about an equivalent of the scheme of *scrutin de liste* ("vote by ballot") upon which Gambetta has staked his ministerial existence. At present the deputies are chosen by arrondissements, which, similar to our counties, are the political and territorial units of France. It is Gambetta's notion that the representatives of the people thus elected are too provincial in their ideas, and too difficult to manage. He would group various arrondissements together, and have the deputation of each group elected in a manner similar to our method of choosing Presidential electors. The scheme reduces the representation of minorities, increases the power of ambitious political leaders like Gambetta, and diminishes the control of the people over the direction of the Government. It has been wisely repudiated."

HOME MISSIONARY WORK.

The *Chronicle* asks: Which of Virginia's churches will be the first to open a school for the instruction of the heathen Piutes?

The churches of Nevada every year contribute a good deal of money to support missionaries laboring thousands of miles away in barbarous countries to enlighten and convert the heathen.

The Piutes are a superior tribe of Indians. They do not steal, they are not given greatly to drink, their women are virtuous and industrious, and the bucks are not nearly so lazy as most red men. They are simply amiable savages, wholly ignorant of the decencies and industries of civilized life, given to dirt and aimless waste of time, while spiritually they are in darkness as deep as were their forefathers, who had never heard a white teamster address his mules.

EDITORIAL NOTES

The *Tribune* says of the Susanville stage line's action in refusing to carry the GAZETTE:

"The idea of Nelse Hammond descending to such meanness! Too thin—too thin."

Incredible as it may appear it is the simple truth. The postmaster here and the drivers were notified, and no paper has been carried for five weeks. There is any amount of cursing all along the line. The farmers are very indignant that public servants should allow their private business to interfere with their duties as common carriers.

The man who stole the studs out of shirt bosoms of the two dead men yesterday was not a Frenchman, as reported yesterday. He is hardly entitled to have a claim on any country. Crime knows no nationality, for it covers the whole earth.

Nevada county people growl at paying $40 costs to execute the sentence of a Truckee Justice. He sentenced a man to one day in jail for contempt, and he had to be taken to Nevada City for incarceration.

The new railroad from Mojave, spoken of in yesterday's dispatches, is to run eastward to the Needles on the Colorado river, about 300 miles.

Solitary and Alone.

WASHINGTON, February 8.

Guiteau is becoming very much depressed. The jail Warden says he no longer assumes the confident air which he always has had, except in the presence of newspaper people. He is to be cut off from all outside communication, and that fact depresses him very much.

Excitement Among the Catholics.

NEWARK, N. J., February 8.

There is great excitement among the Catholics, owing to an assault made on a sister of charity and the closing of school by Father McCorker. Steps are being taken to close the church.

TO-DAY'S NEWS

Press Dispatches to EVENING GAZETTE.

EASTERN.

Students from the Rochester University Disgrace Themselves—The Aesthetic Oscar Careful of his Sunflower.

NEW YORK, February 8.

About one hundred students of the Rochester University, most of whom were seniors, created a great disturbance at Oscar Wilde's lecture in the Grand Opera House here last night. They occupied seats mostly in the gallery, and during the lecture they kept up a running fire of hisses, groans and hooting, which compelled the lecturer to pause more than a dozen times. When the hullabaloo became so noisy that the æsthetic's voice could not be heard, he would stop, fold his arms across his breast, and look calmly at his tormentors, but he evidently thought discretion the better part of valor, and made no comments on the annoyance. When the lecturer had proceeded about a quarter of an hour, an old darkey, dressed with a swallow tailed coat, one white kid glove, and a bouquet of flowers as big as a peck measure, walked down the central aisle with many antics and grimaces, and took a front seat. This was the students' work. The entrance of the darkey was the signal for a great burst of applause, which ended in guffaws, cat calls and other specimens of collegiate amusement. A great many people became disgusted, and left the hall before the close of the lecture. Policemen attempted to eject one of the disturbers, when a gallery melee ensued, which was made more interesting by turning off the gas. The manager of the house sent for more policemen, but before they arrived most of the students had left, and Oscar finished his lecture before a few people who had remained, more to see the fun than to hear the lecture. The sunflower apostle is very much wrought up by his reception.

Canned Salmon.

CHICAGO, February 8.

Referring to an interview published in a morning paper A. Booth, a fish dealer, writes: I have no sympathy with the practice of labeling canned salmon with any label but that of the cannery in which it is packed, and as large salmon canning interests of the Pacific coast will suffer an immense injury if this illegitimate practice is not suppressed, I denounce this practice, and see no explanation for it except a desire to foist inferior goods on the market under the cover of well-known brands. I understand that parties on the Pacific coast feel much aggrieved by the false labeling of these goods, having been thereby obliged to meet unfair and illegitimate competition, and I have been informed that these parties are in possession of certain facts bearing on what has been said, which they will duly publish.

News from the Prize Fighters.

NEW YORK, February 8.

The *Herald's* New Orleans special says: After the battle a doctor examined Ryan and found his left jaw broken in two places, besides several other severe injuries. To add to the poor fellow's misfortunes, while he was fighting some rascal entered his room at the house and stole all his clothes and $300 in money. Thus misfortune seems to pursue him even to the bitter end. W. Emmet, the backer of Sullivan, intends challenging the world with him for any amount, and he will probably take him to Europe should he not find a customer for him in this country. Harry Hill will pay over the stakes held by him this day week at his place of business in New York.

More Trouble in Albany.

ALBANY, February 8.

Tammany Assemblymen withdrew from the Democratic caucus last night, the caucus refusing to adjourn till to-morrow. Tammany wanted an adjournment, that they might deliberate on certain questions intimately connected with the plans which have been formed to secure a monopoly legislation. The caucus nominated a full line of officers for the House, which cannot, however, be elected without the aid of Tammany.

Hazing the Freshman.

NEW YORK, February 8.

The Sophomores yesterday afternoon kidnapped two freshmen of the Syracuse University (one of them is a student from Yokohama) and abandoned them in the woods, leaving them to find their way back in the dark. They have not yet arrived.

The Opinions of Leading Men.

NEW YORK, February 8.

The *Herald's* Washington specials say: The prevailing sentiment among leading minds in both houses of Congress, in both parties, on the question of the interoceanic canals at this time, is this: First—That what is needed is not a ship railway but a ship canal. Second—That a ship canal across the Isthmus ought to be, and must be, controlled by the Government of the United States, so that in time of war they may be able to send its war ships and amunitions of war through the canal, and prevent its enemies from using the canal for hostile purposes toward us. Third—That in order to justly claim the right to exercise such control, the Government of the United States ought to own at least a controlling share of the property, and would be in the best situation if it owned the whole canal. Fourth—That the discussion raised by Blaine about the Clayton-Bulwer treaty was needless and untimely. That no European power will offer to disturb us if we actually build the canal, and that until the world, for its uses of commerce, in which uses by the whole world we are, it is rightly held, as much interested as any other nation. Sixth, it is the general belief that a canal by the way of Nicaragua is more favorably situated for our own uses in time of war, and for the convenience of the world's commerce, than a canal by any other route; that it can be more cheaply and quickly built than a canal by any other line, and that the charter now held by the American company from Nicaragua, is abundant for our ends. Finally, it is probable that the present Congress will adopt measures for the immediate construction of the Nicaragua canal.

Roughs Undertake to Capture a Town and Get Caught Out by the Citizens.

CHICAGO, February 8.

A *Times* Bedford, Ind., special says: The three roughs who were killed while trying to raid a saloon in Tunneltown, were Nicholas Vaughan, aged 17, Vigil Wilson and Jack Whitted. These men, with Ben Willoughby, conspired to steal a large amount of money in Armeins Meyers saloon, then to kill and rob Thomas Clark, a wealthy citizen. They intended to start a fire near the village and after burglarizing a large manufacturing place, to flee to Colorado or New Mexico. Willoughby became frightened and exposed the plot Sunday morning, and precautions were at once taken to thwart them. A freight car, containing five armed citizens in ambush, was rolled nearly to the saloon door, commanding the whole place, and some ten others were hiding about the saloon. When the fellows began their burglarious attempt, five of twenty rifles was concentrated on them. They all fell, but none were fatally wounded until a second volley was given them. Whitted dropped dead, Vaughan was mortally wounded, and Wilson, after running some distance and falling several times, was shot and killed. Vaugan died last night. Willoughby said there was an organized gang of twelve, who had entered upon several villainous plots. He has left in fear of his life. He, as well as the rest, bore very bad characters, though some of them had respectable parents.

Yellow Fever.

NEW YORK, February 8.

Information was received to-day in a private letter dated January 30th, that about half the population of Port-au-Prince is suffering from yellow fever. A son of the United States Minister was dangerously ill with the fever, and it was spreading throughout the island. Port-au-Prince is rigidly quarantined and regular steamers can't enter the harbor. The financial affairs of the country are also in a desperate condition.

The White Man's Energy.

ST. PAUL, February 8.

Dispatches have been sent by General Terry to Colonel Harp, at Fort Custer, directing the removal from the Crow reservation of men engaged in cutting railroad ties. The Crows are so uneasy at the sight of these lawless foragers, that a rebellion against them is threatened. As the Crows have many rich lands and mineral deposits, efforts will be made in the Spring to drive them off.

The New Apportionment.

WASHINGTON, February 8.

Indications very clearly point to the rejection of the Apportionment bill in the House. New York Republicans and most of the Democrats oppose it. Page says it is founded on injustice and will be badly beaten. Substitutes will be offered, fixing the membership at 321, and at present figures, 293, the Democrats favor the latter. Many think 307 will be finally adopted.

Mormon Missionaries.

CHATTANOOGA, TENN., Feb. 8.

The Mormon missionaries are hard at work in Union county, East Tennessee, and have secured a number of converts, notably some negroes. The community is very much worked up against them, and there are threats of lynching.

Anti-Polygamy Meeting.

CHICAGO, February 8.

Anti-polygamy meetings continue to be held all over the country. Last night one was held at Dubuque, which was equal in size to a political mass-meeting. There was much enthusiasm.

Villard Protecting Wheat Growers.

NEW YORK, February 8.

Villard, of the Northern Pacific, is of the opinion that wheat raisers of the far West are at the mercy of merchants, who buy their wheat at prices which merchants themselves are able to dictate. He is desirous of having a development of the wheat-growing regions of Oregon, Washington Territory, and in fact the whole of the entire belt of country through which the Northern Pacific passes. To this end he has engaged the services of George B. Mallory, who has left for San Francisco. Mr. Mallory is a capable engineer and builder, and has erected some of the largest grain elevators in the country. He will go over the entire route of the railroad, with the view particularly of deciding what is best to be done to better facilitate the handling and transportation of the wheat crop. He has taken with him two surveyors to assist in his work. The result of Mr. Mallory's trip will probably be the establishment at every station along the route of the road of a small elevator into which the farmers of the surrounding district can dump their wheat, and from which cars can be easily loaded. This is the system that prevails throughout Iowa, Nebraska, and other Western States.

A Society Flutter.

WASHINGTON, February 8.

Delegate Cannon writes a letter this morning to a paper here denying that he had threatened to expose private escapades of the members of Congress in order to show that Mormon practices were no worse than those of society generally. He says he attends strictly to his business. It is a fact that some Congressmen have been somewhat worried over the reports of what Cannon was going to publish.

Dead Bodies Found.

LAWRENCEVILLE, ILLS., Feb. 8.

A colored man reached town yesterday afternoon breathless with fright and excitement, and stated he had found three dead bodies in the woods seven miles above here, near the banks of an embarrass. All the men were lying face down and the bodies were decomposed and unrecognizable. A posse of citizens immediately left for the place.

Public Building for Sacramento.

WASHINGTON, February 8.

A bill for the erection of public buildings at Sacramento was reported to the House from Committee on Public Buildings and Grounds to-day and referred to Committee of the Whole.

New York Chamber of Commerce.

NEW YORK, February 8.

A meeting of the Chamber of Commerce will be held Wednesday next to meet Sir Henry Parkes, Prime Minister of Sydney, New South Wales, and hear an address by him on the present commercial relations existing between this country and Australia. Sir Henry arrived from San Francisco to-day.

WESTERN.

San Francisco Produce Exchange.

SAN FRANCISCO, February 8.

At a meeting of the Produce Exchange the report of the Call Committee of Seven, appointed to make rules for the conduct of business and Board of Directors, asked to establish standards of produce as mentioned in yesterday's Report. Minority reports by Horace, Davis and G. W. M. C. Near opposing the call system as tending to introduce a gambling feature into the grain trade. Rejected.

Boots and Shoes at Wholesale.

In another place will be found an advertisement in which the great boot and shoe house of Lewis Bros., of San Francisco and Sacramento place before the country dealers the advantages they can offer them over other wholesale dealers. They have an immense stock, which enables them to fill orders of any size promptly and cheaply. They will also send to any one who cannot reach a store whatever is wanted by mail. The firm is entirely reliable, and will do exactly as they agree. Dealers east of the mountains will do well to compare their goods and prices with firms further away.

Suits the Great East.

The Eureka *Leader* quotes the GAZETTE's note on General Sabin and says:

"This is a deserved compliment. General Sabin is all that the GAZETTE claims, and should he be placed on the ticket Cassidy, should he be the Democratic nominee, would have a foeman that would give him a lively deal in Eastern Nevada. Judge Bishop's name has been mentioned in connection with this position, but he manifests no disposition to take it. It matters not whether it is Bishop or Sabin, as it is 'all in the family.'"

Who He Is.

The man who robbed the dead bodies of Higgins and Rowett will have his examination in a day or two. His name is Frank Schiler, a native of Bohemia, and not a Frenchman as stated yesterday. He gives no reason for his dastardly act. His chances for a term in the States Prison are good.

Pursuit of Learning Under Difficulties.

A man caught Principal T. J. Booker, of the Virginia school, whipping a boy with a strap so cruelly that he took his own two children home. He called at the *Chronicle* office and stated the facts. Another man has had Booker arrested for whipping his 11-year old daughter.

District Court.

Dan McMahon is being tried to-day before his Honor Judge King, in the District Court, for arson, in kindling the Verdi fires. Lindsay and Rankin are prosecuting him, and Judge Cossett is the attorney for the defense. The Verdi folks are here in force as witnesses for the prosecution.

RAILROAD MORTGAGE.

The California & Nevada Getting Ready for Active Work.

The Oakland *Tribune* of Monday says: A mortgage for the sum of five millions of dollars, given by the California & Nevada Railroad Company to the Central Trust Company of New York, and John C. New was to-day placed on record in this county—5,000 bonds of $10,000 each. These bonds bear interest at 6 per cent., payable semi-annually, and are redeemable in 1912. The Railroad Company grants a mortgage to the Nevada State line, a distance of 250 miles.

The road was incorporated in March, 1881, for a narrow gauge road from the Bay of San Francisco to the line of Nevada, penetrating the timber lands of the high Sierra. E. N. Wallur was President of the company, C. F. Burrell, Treasurer; E. A. Phelps, Secretary, and B. B. Miner Assistant Secretary. Most of the original stockholders have been bought out under the mortgage just recorded, and an entirely new regime has been instituted.

Iron and ties are on the ground for about thirty miles. The road will cross the Livermore Valley, the San Joaquin, and approach as near as possible to the Yosemite, either through Calaveras and Tuolumne counties or through Merced and Mariposa, the present eastern terminus being in the vicinity of Bodie, Mono county. Nothing definite is at present known regarding the ultimate object of the road, but it is intended to effect a junction either with the Rio Grande, Denver and Nevada, or with Jay Gould's Southern Utah. The track will probably be laid as a combination narrow and broad gauge, with three rails. President Wallur is at present in New York making arrangements for the completion of the road, and it was through his exertions that the mortgage has been secured for building the road.

The Minstrels.

Everyone was well pleased with the minstrels last night. The fun was rich without being very severe on anyone, or in any way indelicate. Emerson retains his youthful appearance and his wit wonderfully. He will probably make people laugh when he is dying. Pete Mack is a solid chunk of fun, and is different from anybody else. He is always ringing in something unexpected that upsets the other players as well as the audience. About the funniest thing seen on the stage nowadays are those little mistakes which the actors pretend to make, but which of course are all arranged beforehand. Last night after taking the part of a young woman Mack appeared as a man, and came in with all the woman's regalia off except the pantilettes, which he seemed to have overlooked. Someone yelled "Take them off," and he retreated. The orchestra is superb. The music is worth the admission fee. The Carson and Virgina people will enjoy the company.

Safford District.

The *Sentinel* says: A correspondent writes us that an important development has been made during the past week in the Zanola mine at Safford. At a distance of 190 feet in the tunnel a body of rich ore has been struck. The character of it is the same as in the Onondaga. It shows strong, is two feet in thickness, and runs north and south. Negotiations are now pending for the sale of another valuable mine here, which will probably be completed in a few days. The purchasing parties thereof intend putting up hoisting works and will develop the property with great diligence.

On the same day the Elko *Independent* says: Not one mine is being worked in Safford District. The owners of the Onondaga are in San Francisco trying to perfect the sale of their mine.

Sow the Best Seeds.

Darwin's theory of the "survival of the fittest" is simply that the weakly die while the robust and hardy thrive and live. How true this is of all seed growth, and how necessary to sow only that which is suited by nature to live and develop. D. M. Ferry & Co., the great seed growers and seed dealers of Detroit, Michigan, supply only the best and purest, raising their own seeds by the most approved methods and with the greatest care, and bringing to their business the invaluable aid of 26 years' experience in culture. Their latest "Seed Annual," for 1882, is a real help to the gardener, and should be in the hands of all who desire to purchase pure and true seeds. It is sent free to all who apply for it.

For Wood River.

The *Miner* says that Woodruff & Ennor will put on a stage and fast freight line from Wells, on the C. P. R. R. to Bellevue. It is needed. The survey was made last summer by Mr. Hamill, of Hamill & Meiggs, heavy shippers and dealers in Wells. His odometer indicated the distance to be about 152 miles, and the road is a natural one—needs very little work to make it the best in the country. The crossing of Snake river would be made at Panye's ferry. The western travel would, very much of it, come from Wells if the firm of W. & E. put on such stock as they use throughout Nevada.

IS HARE MEAT FIT TO EAT?

How Easy it is to Propogate TapeWorms.

A paper was read before the Academy of Sciences the other day which claimed that the wild hare is frequently afflicted with tape worm. It often causes swellings the size of oranges in their loins, which are called by hunters "water blisters." Rabbits never have them, but nearly all other animals do; sheep, cattle, dogs and pigs, frequently. Each joint of the tape worm is a sexually complete animal, both male and female, and contains thousands of eggs. The thorough roasting and well boiling destroys the worm in meats destined for food. Hares afflicted with the disease are sold in the markets every day through ignorance of its character, and given to dogs to eat, by which means the mischief is increased. The writer contended that at no distant date the flesh of the hare would not longer be considered edible.

In a discussion that followed, it was maintained that man was addicted to the sufferings from the existence of tape worms more by eating of raw or half-cooked beef than by the use of pork, raw beef being often given by medical men to young children.

Quincy Items From the "National's "Jab-Jabs" Column.

Wednesday night was the coldest of the season, the thermometer showing 4° degrees below zero at this place in the morning.

The Reno stage comes all the way on runners, and makes regular trips.

The sale of the Hayden Hill (Lassen county) mines to the English Co., for $600,000, did not come off, as announced.

A harness shop, a tailor shop and a new shoe shop have been added to Quincy's business houses in the past week.

Rondo is the fashionable game now in-town.

An occasional snow-balling match makes fun for the boys on the street.

Eight or ten feet of snow are reported at Eureka Mills.

The Morning Star Mine at Granite Basin, owned by Minto & Co., is turning out some very rich rock, which will be crushed as soon as the spring thaw comes.

A paragraph is going the rounds of the newspapers to the effect that the wild geese are eating up the grain crops in Plumas county. The chances are that there are not twenty wild geese in the county, and if they were provided with patent self-feeding steel bills as sharp as a needle, they couldn't pick a hole down to the ground in three weeks, and then they wouldn't find a crop. The cereals of Plumas are safe.

A Desolate Heart.

"It never rains but it pours." The widow of the late Isaac Chamberlain had her little boy, an only child, snatched from her breast last night at 11 o'clock by the cruel hand of Death. Little Willie was cutting his teeth, having six coming through at the same time. Dr. Hogan lanced the child's gums yesterday forenoon, and last evening he called and lanced them again. It seemed to give the little sufferer relief, but at 7 o'clock he was taken with spasms, which continued until his death at 11 o'clock last night. Mrs. Chamberlain is prostrated with grief. Her burden is truly hard to bear, and she has the sympathy of every family in town. The funeral will take place from Trinity Church to-morrow at two o'clock.

Strange Fruit.

The trees out west have often borne strange fruit, but the Nevada *Transcript* has discovered a new one still. It says: Levi Williamson cut down a mammoth oak tree at Blue Tent day before yesterday. Upon splitting it he found imbedded in the heart of the trunk, sixty feet above the roots, a granite bowlder weighing about two pounds. Many, many years ago, when the forest giant was a sapling, some aborigine must have placed the rock between the main shoot and one of its small branches.

Marked Money.

Thomas Ryan, the man convicted of selling whisky to Indians, was taken before Judge Young this morning, and sentenced to 90 days in the county jail. Avery put up a nice little job to catch Ryan. He marked two quarters, gave them to an Indian, who went to Ryan and bought a bottle of whisky with the money. Ryan was immediately arrested and the marked coins found in his pocket.

Must Fight it Out.

T. E. Picotte, editor of the Hailey *Times*, received a letter from Senator John P. Jones, of Nevada, in which he declares his opposition to the scheme to divide up and parcel out Utah Territory, and says: "Utah must work out its own regeneration by means of the law, and I shall give my most strenuous support to all movements that may tend to compass this most important end."

Personals.

Geo. A. King came up from San Francisco yesterday morning.

B. F. Bacon, Pat Henry, Judge Bower and several others from Verdi are in town to-day, as witnesses in the McMahon arson case.

Oh! it takes so much to clothe my family; my savings soon disappear; I am making no bank account for my old age! Very well, my friend. You may be, like Franklin, paying too much for the whistle. Let us volunteer a word. Perhaps you don't keep yourself posted, and unnecessarily pay two prices for what you buy. All kinds of wearing material, you should know, are very low. One cent, invested in a postal card and sent to the Red House Trade Union, of Sacramento, and your name and address thereon, will insure you in return a complete price-list of everything necessary to your wants, a description of the same, the price and true value. The house always carries a special line of extra weight goods in suits, overalls, jumpers etc., manufactured expressly for miners, ranchers, mill men, etc; miners' boots in hob, nail and rubber; heavy calf and waterproof kip boots, manufactured expressly for use on this Coast. This house makes a special business of country orders. They have a department 24x80 expressly fitted up for this purpose—and not on paper, as so many are. Send for their price-list. It will be money for you. Address:

One Experience From Many.

"I had been sick and miserable so long, and had caused my husband so much trouble and expense—no one seemed to know what ailed me—that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me they said, 'Hurrah for Hop Bitters! long may they prosper, for they have made mother well and us happy.'"—THE MOTHER.

He has a large and fine stock of jewelry, diamonds, silver and plated ware, clocks, etc. n1tf

LEWIS BROS.,

From San Francisco, have opened in Sacramento a strictly ONE PRICE BOOT AND SHOE HOUSE, wholesale and retail, at which store can be found boots and shoes at prices which will astonish all, both great and small. Here can be found the most varied assortment of all the latest styles and one of the largest stocks to select from.

It is a well-known fact that here in Sacramento and surrounding country, WAR PRICES for boots and shoes have been maintained, without any apparent effort on the part of shoe dealers generally to make the prices in accordance with other merchandise, while the prices for the material from which they are made have been reduced from year to year, and labor but half the price of former times, which the reader of this knows to be a fact,

The laboring man, receiving one dollar per day, pays the same price for Boots and Shoes, here in Sacramento, as be did when receiving two and three dollars per day for the same work.

ALL THIS

BELL TONGUE SYRUP,

AN ACCIDENTAL DISCOVERY OF great value.

An Inestimable Benefit to Mankind.

UNCLE BEN JO'S

GREAT SOUTH AMERICAN PANACEA.

UNCLE BEN JO was born in Boston in 1800. Being a botanist, he effected many wonderful cures with roots and herbs. In 1814 he went to South America to study botany, and while there accidentally made his great discovery. The natives of this country were quite familiar with it, and had always supposed it to be a poisonous herb, which they used for the sole purpose of keeping snakes away from their tents or houses. This they did by laying it in a circle about the same at a proper distance off. This herb, Uncle Jo, as well as the natives, considered a very obnoxious and poisonous one, and when green and fresh it threw off a very distasteful and repulsive odor. The herb grows about two feet high, and about eight inches of the top part of its stalk is leafless, and this part lops over and hangs downward perpendicularly, and from its curved neck to its end it increases in size, and on the end of the same is a large, burly-looking ball, which stalk and ball, in this hanging position, looks precisely like the tongue of a bell. Hence Uncle Jo named it the Bell Tongue Plant. In South America this herb is only found in the extreme interior of the country, and the natives there call it "Zarr Nero." It is a wonderful cure of kidney and liver diseases, also, dyspepsia, neuralgia and rheumatism. We have a whole library full of testimonials. Sold by
